About us

da21 is a network of organisations and individuals who are working for sustainability in Dorset.

Sustainability involves using the Earth's finite natural resources wisely, so that the health of the planet is safeguarded for future generations. It means bringing social, economic and environmental goals together. da21 grew out of Dorset Agenda 21, one of the Local Agenda 21 organisations set up after the Rio Earth Summit of 1992.

da21 is a registered charity (no. 1102528) and is an independent, not-for-profit company (Company Number 4988176).

We work for sustainability. We encourage 'living lightly' and sharing the Earth's resources fairly; we promote local materials and food, reducing waste, clean energy, and greener schools and businesses

We work with local community groups and organisations to create and encourage climate friendly and sustainable communities in Dorset.

We are also involved in influencing local, regional and national decision makers to encourage them to take sustainability into account.

Current projects

Action on Climate Change

da21 has worked with local partners to setup a Dorset Climate Change Coalition. The aim of the Coalition is to communicate a clear and unified message to the people of Dorset on Climate Change, and what we can do to mitigate it.

More info: www.dorsetclimate.org.uk

Supporting grassroots action

da21 work with community based groups across the county.

Are you a member of a group? Contact us to find out some of the ways we can work with you, for example we can;
Arranging speakers on sustainability & climate change, publicising your group and events, provide advice on relevant issues.

da21 have also created a directory of sustainability organisations in Dorset to facilitate networking, if you wish to join please contact us.

More info: www.da21.org.uk
